EXPERIENCE

Frontend Developer

CodeTime

2017 - 2020 - Yerevan, Armenia

Developed responsive, user-friendly web interfaces using HTML, CSS, JavaScript, and React.js. Collaborated with design teams to implement interactive features and optimized UI for performance across browsers and devices. Focused on enhancing user experience and ensuring high-quality code through best practices and testing.

Backend Developer

PhenixCorporation

2020 - 2023 - Yerevan, Armenia

Built and maintained scalable backend systems using Laravel and Express. Designed and integrated RESTful APIs, managed databases (MySQL, PostgreSQL), and optimized server performance. Ensured security and reliability of systems while collaborating with frontend teams to deliver seamless full-stack solutions.

Fullstack Developer

EDU Systems

2023 - present

Leading full-stack projects with Laravel, React.js. Designed efficient APIs, integrated third-party services, and built scalable solutions. Managed job queues with Laravel Horizon and RabbitMQ. Applied SOLID principles, OOP, and Laravel features like middleware, observers, and event handling to maintain clean architecture and performance.
